

Wesley Tenancy Assist

The Wesley Tenancy Assist program aims to address issues that place tenancies at risk, in the early stages before events escalate to eviction. Avoiding evictions wherever possible can help reduce the prevalence of homelessness, not to mention the time, cost and stress incurred by all parties.

Wesley Mission is able to offer early intervention support by:

- assisting tenants with rental arrears
- giving aid to tenants in temporary hardship to avoid eviction
- providing flexible and practical support
- linking tenants to specialist services as needed.
